

**MINUTES OF THE MEETING
COMMISSION ON CHICAGO LANDMARKS
September 4, 2014**

The Commission on Chicago Landmarks held their regularly scheduled meeting on September 4, 2014. The meeting was held at the City Hall, 121 N. LaSalle St., Room 201-A, Chicago, Illinois. The meeting began at 12:45 p.m.

PHYSICALLY PRESENT:

Rafael Leon, Chairman
Jim Houlihan, Vice Chairman
Andrew Mooney, Secretary
Commissioner of the Department Planning and Development
Victor Ignacio Dziekiewicz
Mary Ann Smith
Richard Tolliver

ABSENT:

Anita Blanchard
Tony Hu
Ernest Wong

ALSO PHYSICALLY PRESENT:

Eleanor Gorski, Director of Historic Preservation, Department of Planning and Development
Lisa Misher, Department of Law, Real Estate Division
Members of the Public
(The list of those in attendance is on file at the Commission office.)

A transcript of this meeting is on file at the Department of Planning and Development, Historic Preservation Division offices and is part of the public record of the regular meeting of the Commission on Chicago Landmarks.

Chairman Leon called the meeting to order.

1. Approval of the Minutes of Previous Meeting

Regular Meeting of August 7, 2014

Motioned by Smith, seconded by Tolliver. Approved unanimously. (6-0)

2. Pre-Permit Review of Proposed Changes to a Landmark Building

LONDON GUARANTEE BUILDING
360 N. Michigan Ave.

WARD 42

Commissioner Mooney requested that the staff recommendations and conditions of approval be modified to require the review and approval of the installation of a new sign covering the sign above the entrance on the historic building. Commissioner Dziekiewicz voiced concerns about covering up this historic feature. Vote to approve the proposed project at the LONDON GUARANTEE BUILDING subject to the modified staff recommendations.

Motioned by Houlihan, seconded by Smith. Approved unanimously. (6-0)

3. Recommendation to City Council for Approval of Class L Property Tax Incentive

LONDON GUARANTEE BUILDING
360 N. Michigan Ave.

WARD 42

Vote to approve the recommendation to City Council for the Class L Property Tax Incentive for the LONDON GUARANTEE BUILDING.

Motioned by Tolliver, seconded by Smith. Approved. (5-0-1)

4. Permit Review Committee Report

Report on Projects Reviewed at the August 7, 2014 Permit Review Committee Meeting

Commissioner Houlihan presented the report from the Permit Review Committee meeting of August 7, 2014 (see attached).

Report on Permit Decisions by the Commission Staff for the month of August 2014

Dijana Cuvalo presented the staff report for the month of August 2014 (see attached).

Status Report on Repairs to Uptown Theater

Dijana Cuvalo and Judy Frydland, Deputy Corporation Counsel, reported on the status of the repairs and the court case. The Commission requested that staff provide another update at the regular meeting in December 2014.

5. Other Business

Commissioner Smith reported on the meeting with staff and local preservation groups to identify and discuss preservation related issues and “curiosities” that are not under the current purview of the Commission but are of concern to the community.

6. Adjournment

There being no further business, the meeting was adjourned at 1:57 p.m.

Motioned by Dziekiewicz, seconded by Smith. Approved unanimously. (6-0)

Andrew Mooney, Secretary

PERMIT REVIEW COMMITTEE
COMMISSION ON CHICAGO LANDMARKS
October 2, 2014

The Permit Review Committee (PRC) met on September 4, 2014, at 2:03 p.m. The meeting was held at 121 N. LaSalle St., in Council Chambers

Present: Victor Ignacio Dziekiewicz (left during item #6)
James M. Houlihan
Mary Ann Smith
Reverend Richard Tolliver

Staff: Eleanor Gorski, Director of Historic Preservation
Dijana Cuvalo
Cynthia Roubik
Lawrence Shure

The following projects were reviewed by the PRC:

- 1. 7059 S. South Shore** **5th Ward**
South Shore Cultural Center
Proposed replacement of exterior promenade, repair of entry pergola columns and trellis, window and door repair, exterior stucco repair, interior painting and other rehabilitation.

Action: Approved unanimously with the following conditions:

1. Historic Preservation staff to be notified to view and approve concrete samples on-site prior to fabrication and installation;
2. A clear masonry coating for the cast stone tower balconies only is approved (clear coating will not be used for any other masonry elements), provided that the product specifications are submitted for Historic Preservation staff review and approval. Any coating shall be vapor-permeable and shall not change the color or texture of the cast concrete; and,
3. The ramp and stair railings shall be a dark, non-reflective color.

- 2. 111 E. Cermak Road** **3rd Ward**
Motor Row District
Proposed rehabilitation of two historic buildings and new construction on a vacant lot in the Motor Row District as part of a larger hotel and data center project.

Action: Approved unanimously with the following conditions:

Rambler Building (2246-58 S. Indiana)

1. The art display walls proposed at the first floor of the building shall be partial height and final design details shall be submitted for Historic Preservation staff review and approval with the permit application;
2. The permit plans shall include enlarged dimensioned details of the proposed new storefront system, glass panel overhead doors, and windows. Storefront mullions shall have a dark, factory-applied finish;
3. Any required replacement masonry shall match the historic in size, color, texture and joint profile and masonry samples shall be reviewed and approved by Historic Preservation staff;
4. As proposed the building shall be braced and protected during construction. The recommended measures, sequencing, and protections shall be incorporated into the permit plans for Historic Preservation staff review and approval; and,
5. The encroachment of the new data center atop the Rambler Building is approved as submitted on drawings dated August 28, 2014;

Bird-Sykes Building (2215 S. Michigan)

6. As proposed, the non-historic covering and infill at the front façade shall be removed and the masonry façade restored based on the physical evidence uncovered at the site. A masonry restoration and reconstruction plan as well as cleaning specification shall be submitted with the permit plans for review and approval. Any required replacement masonry shall match the historic in size, color, texture and joint profile and masonry samples shall be reviewed and approved by Historic Preservation staff;
7. Any remnants of the original storefronts shall be preserved or, if not salvageable, shall inform the design of the new storefronts. New storefront elements shall have a dark, factory-applied finish and storefront details shall be submitted with the permit plans; and,
8. Enlarged window details shall be submitted with the permit plans;

New Construction on vacant lot north of 2215 S. Michigan

9. As proposed, no projecting canopies will be installed on the exterior of the new structure along Michigan and operable door systems shall be incorporated at the storefronts along Michigan and Cermak where possible;
10. The west elevation exit stair glazed cladding shall incorporate a frit glass or translucent film to screen the visibility of the exit stair from Michigan Avenue. Samples of the proposed frit glazing or translucent film shall be submitted to Historic Preservation staff for review and approval with the permit application;
11. As proposed, exterior architectural lighting is proposed for the Michigan Avenue and Cermak Road elevations of the new building. The lighting fixtures above the 2nd floor level shall be located to eliminate their visibility from the public rights-of-way and details and fixture cut sheets shall be submitted with the permit application;

12. Dimensioned details of the proposed windows and storefronts shall be submitted with the permit plans. Storefront elements shall have a dark, factory-applied finish;
13. Material samples shall be submitted to Historic Preservation staff for review and approval prior to permit submittal.

In addition, the Committee found that the demolition involved with the project, based on the submitted information, does not trigger the requirements of Section 2-120-825 governing the demolition of 40% or more of landmark buildings

3. 832 W. Fulton

27th Ward

Proposed Fulton-Randolph Market District

Adoptive reuse of meat-packing buildings into a mixed-use development including proposed demolition of preliminarily identified non-contributing structures located at 800 W. Fulton and west addition of 310 N. Green, proposed demolition of secondary facades of preliminarily identified contributing structures located at 856 W. Fulton and 310 N. Green, 2-story new construction, and 1-story rooftop addition.

Action: The Committee unanimously approved the following findings and the following conditions:

- (A) Find that the structures, a 2-story building constructed c. 1960s located at 832 W. Fulton and the 2-story west side addition attached to 310 N. Green, are non-contributing to the proposed district and their demolition will not be an adverse effect;
- (B) Find that the two structures, a 2-story building constructed in 1887 and a third floor added in 1903 located at 856 W. Fulton and a 2-story building completed in 1904 located at 310 N. Green, are contributing to the proposed district.

The project is not subject to the provisions of Section 2-120-825 of the Municipal Code of Chicago governing review of permits for the demolition of 40% or more of any building or structure either designated as a “Chicago Landmark” or located in any district designated as a “Chicago Landmark”.

Partial Demolition:

1. Due to the deteriorated conditions of the masonry walls and interior wood frame structure, inadequate load provisions, and highly compressive soil conditions particular to the subject properties, the proposed demolition of the east (side) and north (rear) common brick secondary facades of 856 W. Fulton and demolition of the west (side) and south (rear) common brick secondary facades of 310 N. Green is approved;
2. A report by a licensed structural engineer addressing the partial demolition of the structures, relative to how the four historic facades to remain in-situ should be braced and protected during construction, shall be submitted for Historic Preservation staff review and approval, as part of the permit plans.

The recommended measures, sequencing, and protections shall be incorporated in the structural and architectural drawings.

Exterior Rehabilitation:

3. As proposed and shown on the submitted drawings dated 8/19/14, the historic street-facades of 856 W. Fulton and 310 N. Green shall be repaired in-situ and rehabilitated in accordance with the Commission's standards and guidelines, including the replacement of missing features as indicated by these drawings;
4. Select portions of the historic street facades that require reconstruction due to deteriorated conditions shall use salvaged bricks as much as possible. Any replacement brick and new mortar shall match the historic in size, texture, color, finish, and profiles;
5. Enlarged dimensioned details of the new windows and storefronts shall be included with the permit plans. The muntins may be simulated-divided-lites but shall have a substantial profile with spacer bars and interior profiles to replicate the historic profiles. The window and storefront frames and mullions shall have a dark color/finish and the glazing shall be clear glass;
6. The new sidewalk elevations shall match the existing sidewalk elevations. Existing and proposed details of the sidewalks shall be included in the permit plans as well as proposed railing details;
7. The rooftop addition, setback approximately 36'-10" from Fulton Market and 5' taller than the 856 W. Fulton facade is approved as proposed;
8. A new projecting canopy, consistent with the architectural character of the building, shall be installed at 310 N. Green facades. Details for any new canopies, awnings, signage, including any exterior lighting, shall be compatible with the character of the historic facades and proposed district and shall be reviewed and approved by Historic Preservation staff when developed and prior to order and installation;

New Construction:

9. The proposed roof-top trellis on top of the new 2-story corner structure shall be eliminated as trellises are not characteristic of the historic and architectural character of the proposed district;
10. The metal and precast concrete panel cladding for the portion located mid-block on Green and the corner facing Wayman and Peoria, which encloses required parking spaces and back-of-house spaces for the development, shall incorporate more depth and reveals and include color ranges to be compatible with the proportions, depth, and range of color palettes of historic facades in the proposed district; and,
11. Enlarged exterior wall details and material samples shall be submitted as part of the permit application and subject to staff review and approval.

4. 900 W. Randolph

27th Ward

Proposed Fulton-Randolph Market District

Proposed conversion and rehabilitation of existing 2-story masonry warehouse commercial building into restaurant use including new windows and storefronts.

Action: Approved 3-1 (with Commissioner Smith voting against) with the following conditions:

1. Due to the adaptive reuse of this warehouse building as a restaurant and given that the proposed lowering of the existing punched opening window sills are on the side elevation facing Peoria, the masonry opening alterations are approved as proposed;
2. Enlarged dimensioned details of the new steel windows and storefronts shall be included with the permit plans. The muntins may be simulated-divided-lites but shall have a substantial profile with spacer bars and interior profiles to replicate the historic profiles. The window and storefront frames and mullions shall have a dark color/finish and the glazing shall be clear glass; and,
3. The new retractable fabric awnings, proposed to span between the piers and with open ends and a free-hanging valence as approved as proposed. Attachment details shall be included in the awning permit application. Any other signage, including any exterior lighting, shall be reviewed and approved by Historic Preservation staff prior to order and installation.

5. 219 N. Carpenter

27th Ward

Proposed Fulton-Randolph Market District

Proposed removal and reconstruction of the front façade of a 2-story brick building and installation of new first floor storefronts

Action: Approved unanimously with the following conditions:

1. The front façade may be reconstructed as proposed given the existing structural conditions, as confirmed by the structural engineer, which include significant inward and outward bowing and cracking throughout the façade. As proposed, the reconstructed masonry façade shall match the existing façade in size, brick coursing, and detailing;
2. A report by a licensed structural engineer addressing the demolition of the front façade, relative to how the side and rear elevations, interior structure and roof to remain in-situ should be braced and protected during construction, shall be submitted as part of the permit application. The recommended measures, sequencing, and protections shall be incorporated in the structural and architectural drawings;
3. The existing front façade shall be documented and dimensioned elevations and enlarged brick details of each unique condition shall be included on permit plans.
4. Should any replacement masonry units be required it shall match the size, color, texture, and finish of the existing brick. New mortar shall match historic mortar in joint width, profile, and color. A reconstruction plan, identifying areas or reused and new brick, shall be submitted for Historic Preservation staff review and approval prior to work occurring:

5. The proposed storefronts shall incorporate bulkhead panels matching the height of the column bases, all glass shall be clear vision glass, and the storefronts shall have a dark, factory applied finish; and,
6. Proposed new 2nd-floor windows shall be wood or clad-wood and window details shall be included with the permit plan, as well as attachment details for lighting fixtures.

**6. 1306 N. Dearborn Parkway
Three Arts Club**

2nd Ward

Proposed interior alterations in the first-floor historic dining room.

Action: The motion to approve the project per the staff recommendations did not pass. The Committee voted 2-1 (with Commissioner Tolliver against) that the applicant revisit the proposed treatment of the historic dining room for a proposal that would better meet historic guidelines.

**7. 1709 N. Fern Court
Old Town Triangle District**

43rd Ward

Proposed alterations to 2½-story frame coach house facing Fern Court to include reconstructing the deteriorated brick foundation walls, repairing the wood siding, replacing the entrance stair, raising the interior first floor height by 8”, and installing a new curb-cut, driveway, and garage door.

Action: Approved unanimously with the following conditions:

Structural Work:

1. The existing deteriorated brick foundation walls may be rebuilt as proposed reusing salvaged bricks above grade for the outer wythe and to match the existing walls in height, outside brick plane location, and brick pattern;
2. As part of the permit application, a survey of the existing floor and roof heights of the building shall be submitted. Upon completion of the foundation walls reconstruction, another survey of shall be submitted indicating the height of the top of the foundation from grade. And upon completion of the project, another survey shall be submitted indicating the final roof height of the building to confirm no change in height from existing. The surveys shall be stamped by licensed surveyors and submitted to Historic Preservation Staff for review and approval;
1. A report by a licensed structural engineer addressing the proposed foundation reconstruction and structural modifications, relative to how the building should be braced and protected during construction, shall be submitted for Historic Preservation staff review and approval, as part of the permit plans. The recommended measures, sequencing, and protections shall be incorporated in the structural and architectural drawings;
2. The new curb-cut and 9’-6”-wide driveway under the stair landing and which slopes 12 degrees down from the sidewalk level are approved. The width of the curb cut shall be minimized as much as possible;

Exterior Rehabilitation Work:

3. The historic wood siding shall remain and be repaired, wherever possible. Areas beyond repair may be replaced with new wood siding to match the historic siding in size, type and profile. Historic Preservation staff shall review the condition of the siding prior to any work beginning and shall approve any areas of replacement and the replacement siding;
4. The new wood stair shall have a closed riser and shall be painted or stained in opaque finish, consistent with historic wood stairs in the district;
5. As proposed, the main entry opening and double doors shall remain as existing; and,
6. The new double-hung windows on the side elevations shall be wood or clad-wood with profiles and trim consistent with the historic configuration and profiles. Enlarged existing and proposed window details and the garage door cut sheets shall be included in the permit application submission.
